

PIYUSH BAJPAI

Full Stack Development • B.Tech CSE (AI & ML) Student • Building for Web + AI

9628497660 | pbajpai207@gmail.com | Greater Noida, Uttar Pradesh

linkedin.com/in/piyushhdotai • github.com/piyushhdotai

PROFILE

Computer Science student focused on full stack development and modern web experiences. Comfortable building responsive applications, working across frontend and backend workflows, and exploring Generative AI and agentic systems through practical projects.

EDUCATION

Galgotias College of Engineering and Technology

2024 – 2028

B.Tech – Computer Science with AI & ML

Dayawati Modi Public School

2023 – 24

Class XII – 89.6%

SKILLS

Languages: C, C++, JavaScript, Python, Basic Java

Frontend: React, Tailwind CSS, Shadcn UI, GSAP

Backend: Node.js, Express.js, MongoDB Atlas

Tools: Postman, Git, Docker, Linux, VS Code

PROJECTS

Portfolio Website

Built a personal portfolio with React, Tailwind CSS, Shadcn UI and GSAP. Added smooth transitions, responsive sections and modern UI interactions. Deployed on Vercel.

Live: pb-portfolio-peach.vercel.app **GitHub:** github.com/piyushhdotai/Portfolio

GTA VI Fan Website

Designed an animated showcase website inspired by GTA VI using React and GSAP. Focused on motion, immersive scrolling and responsive layout design.

Live: gta-vi-website-chi.vercel.app **GitHub:** github.com/piyushhdotai/GTA-VI-Website

ACHIEVEMENTS & CERTIFICATIONS

- LeetCode: 100+ problems solved
- 50 Days LeetCode Badge
- Full Stack Generative and Agentic AI with Python – Udemy
- Cybersecurity Fundamentals – IBM SkillsBuild
- Python Django 101
- GSSOC '26

AREAS OF INTEREST

Full Stack Development • Artificial Intelligence & Machine Learning • Generative AI • Open Source
