EDUCATION

- **Galgotias College of Engineering and Technology, Greater Noida** 2024-2028 (expected)
B.Tech in computer science and engineering (AIML) CGPA/Percentage: 7.25
- **Dayawati Modi Public School, Raebareli** 2024
Central Board of Secondary Education 12th Percentage: 89.6

EXPERIENCE

- **Smart India Hackathon (SIH)** 2026
Software Development Team Member India
 - Collaborated with a team to develop a solution for satellite imagery-based geospatial analysis and land-use change detection.
 - Contributed to frontend, backend, and database integration throughout the development cycle.
 - Worked on integrating geospatial visualization and image-analysis capabilities into the platform.

PROJECTS

- **BHU-DRISHTI – Geospatial Analytics Engine [GitHub]** 2026
Satellite imagery-based geospatial analytics and land-use change detection
 - Tools & technologies used: React.js, Tailwind CSS, Python, FastAPI, MongoDB, OpenCV, GeoJSON
 - Built a full-stack geospatial analytics platform to process multi-temporal satellite imagery and identify spatial changes between time periods.
 - Implemented interactive Area of Interest (AOI) mapping, before/after imagery comparison, change-region detection, GeoJSON polygon generation, and affected-area calculation.
- **Personal Portfolio Website [GitHub] [Live]** 2026
Responsive developer portfolio with animated and interactive user interface
 - Tools & technologies used: React.js, JavaScript, Tailwind CSS, Shadcn UI, GSAP
 - Developed a responsive portfolio application using reusable React components to showcase projects, technical skills, certifications, and experience.
 - Integrated GSAP animations, interactive UI elements, and responsive layouts to create a polished user experience across desktop and mobile devices.
- **GTA VI Fan Website [GitHub] [Live]** 2026
Interactive gaming website inspired by Grand Theft Auto VI
 - Tools & technologies used: React.js, JavaScript, HTML, CSS, GSAP
 - Built an immersive, responsive frontend with a gaming-focused visual design, structured content sections, and interactive navigation.
 - Implemented GSAP-powered animations, transitions, and responsive UI components to enhance visual interaction and scrolling experience.

TECHNICAL SKILLS AND INTERESTS

Languages: C/C++, Python, JavaScript
Developer Tools: Git, GitHub, VS Code, Postman, Docker, Linux
Frameworks: React.js, Node.js, Express.js, FastAPI, Tailwind CSS
Cloud/Databases: MongoDB, MongoDB Atlas, Firebase, REST APIs
Soft Skills: Team Collaboration, Communication, Adaptability
Coursework: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, Cloud Computing, Artificial Intelligence
Areas of Interest: Artificial Intelligence, Generative AI, LLMs, Agentic AI, Full-Stack Development

CERTIFICATIONS

- **Full stack generative and agentic AI with python**–Udemy 2026
- **Data Structures and Algorithms**–GCET training 2025-2026
- **Cybersecurity Fundamentals**–IBM 2025
- **Python Django**–SimpliLearn 2025
